- Maintenance

Sectors of operation

- Industrial
- Commercial

Know-how

- Sunlight studies
- Electrical studies
- Structural studies
- Administrative procedures
- Economic simulations
- Supply of equipment
- Installation and wiring
- Commissioning

Our multi-purpose shade structures are compatible with all types of solar panels. Their design is based on a precise, optimised model that achieves high performance thanks to the use of small-section profiles. On request, the aluminium shade can be customised by choosing from a wide range of colours and finishes.

All models offer the following features and benefits :

- Quick installation
- Duplicable
- Durable (aluminium structure)
- Colours to match the building
- Sized to suit your location
- Complies with EN 13782, NTC 2018 and UNI EN 1991 standards
- CE certified
- 5-year guarantee
- Moveable (Light model)

Each shade can be equipped with charging stations and an intelligent management system. We can advise you on the best choice of charging points for your business.

When you call on John Cockerill, you are putting your trust in a solid, qualified partner who can guarantee the performance of your installation over the years.
